Subject: Conference on the completion of the EU internal energy market

Dear Lord Mogg,

On 29 September 2011 the European Commission organises a conference on the completion of the EU internal energy market: "getting to 2014".

The conference will take stock of the progress made in completing the EU internal energy market and identify further action that must be taken in order to achieve the European Council's objective of having a fully functioning internal energy market by 2014.

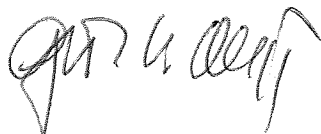

The conference will be divided into different blocks. For each block a panel discussion is foreseen, with an introductory statement from the Commission.

I am pleased to invite you as a member of one of the panels, in particular to have your views on the topic "Establishing and enforcing internal energy market rules"

An invitation to the conference is attached, as well as a provisional program. Should you have any questions on the provisional program, please contact Mr Nicolaas Bel (nicolaas.bel@ec.europa.eu, Tel. +322-298 51 25).

I would be pleased if you could accept this invitation. Your contribution would be of considerable value.

Yours sincerely,

The completion of the EU internal energy market: "getting to 2014"

29 September 2011, Brussels
