Invitation to respond to the Public Consultation
Document PC_2012_R_10

21 June 2012

According to Article 7(3) of Regulation (EU) No 1227/2011 on Wholesale Energy Market Integrity and Transparency (“REMIT”), the Agency for the Cooperation of Energy Regulators (the “Agency”) may make recommendations to the Commission as to the records of transactions, including orders to trade, which it considers are necessary to effectively monitor wholesale energy markets. Before making such recommendations, the Agency shall consult with interested parties, in particular with national regulatory authorities, competent financial authorities in the Member States, national competition authorities and the European Securities and Markets Authority (ESMA).

This public consultation document contains the Agency’s draft recommendations on the records of transactions. Since the records of transactions are closely linked with the implementing acts on data collection and both are interdependent, this public consultation document also covers aspects related to the implementing acts on data collection according to Article 8(2) and (5) of REMIT. It is intended to collect views from all parties interested in the implementation of REMIT (market participants, organised markets and other persons professionally arranging transactions, financial regulatory authorities, etc.) on the Agency’s draft recommendations.

The Agency invites all interested parties to provide comments to the public consultation document, and especially answers to the consultation issues listed in Annex I, by 31 July 2012, 12.00 noon, Central European Time, to consultation2012R09@acer.europa.eu. In order to benefit from the public consultation in the best way possible, ACER encourages stakeholders to provide constructive and comprehensive answers to each question.

Following the public consultation period, ACER will publish all answers received from stakeholders. Stakeholders should also consider that confidential answers should be used in a limited way.
