

**OPCOM response to the Public consultation on the provisional REMIT list of
organised market places**

02 December 2014

The Agency for the Cooperation of Energy Regulators (ACER) invited all parties interested in the implementation of REMIT to reply to the questions listed in the Public Consultation Paper on the provisional REMIT list of organized market places.

OPCOM, as one of the Europex members, will make its position known via the response coordinated at the level of the Association of European Energy Exchanges.

However, for clarity's sake, OPCOM would like to answer also individually to 1st question of the consultation:

1. Please provide us with your comments on the draft list of organised market places. Do you see any omissions or errors in the list? Do you think that any organised market place or any information on organised market places is missing, that should be published in order to facilitate transaction reporting under REMIT? Please comment especially the potential organised market place status of those entities marked with an asterisk that had not registered themselves as organised market places at the time when this public consultation was launched. Please justify your reply.

Response:

OPCOM was unable to register in the list of Organised Market Places (OMP) until the mentioned deadline. Nevertheless, thanks to ACER, OPCOM is included in the draft list marked with an asterisk.

Having regard to:

- the role of OPCOM in the Romanian wholesale electricity market and gas market, and
 - the cooperation under the Memorandum of Understanding between the Agency and OPCOM as organised market place, and
 - the article 2(4) of the Draft Implementing Acts defining organised market places,
- we would like to kindly ask ACER to include OPCOM in the final list of OMPs under REMIT.

To this end, please find attached the OPCOM Registration Form.

We are confident that registering OPCOM in the final List of Organised Market Places will help transaction reporting under REMIT.

ANNEX

Establishment of a List of Organised Market Places

OPCOM
Registration Form

Date of application	02/12/2014
