## COMMENTS ON THE AGENCY'S PROPOSALS FOR MAXIMUM AND MINIMUM CLEARING PRICES FOR SINGLE DAY-AHEAD AND INTRADAY COUPLING

---

[REDACTED] of GNERA ENERGÍA Y TECNOLOGÍA S.L.,  
set out the following comments on the questions referred:

**Q1: Do you have any concern with respect to the new proposed automatic  
adjustment rule for  $P_{\max DA}$  and for  $P_{\max ID}$ ?**

No

**Q2: Which of the three proposed options for the  $P_{\max DA}$  would have your preference?**

We prefer option 1: to keep the  $P_{\max DA}$  as proposed by all NEMOs +3000 €/MWh, because we estimate that this price is high enough to reflect market volatility.

**Q3: Do you have any concern with respect to the new proposed implementation  
date?**

The sooner the prices of the countries that are part of the SDAC and SIDC are harmonized, we will all be on an equal conditions, so the proposed date of 1<sup>st</sup> January 2019 seems to us correct

In Madrid, on 15 September 2017
