

ACER initiates the procedure ref. ACER-ELE-2023-010 on amendments to the Core intraday capacity calculation methodology (Core ID CCM).

On 4 April 2023, the regulatory authorities of the Core capacity calculation region (CCR) referred to ACER a proposal of the Core TSOs to amend the Core intraday capacity calculation methodology (Core ID CCM) pursuant to Article 20(2) of Commission Regulation (EU) 2015/1222 establishing a guideline on capacity calculation and congestion management.

ACER has commenced the procedure ref. ACER-ELE-2023-010 under Article 5(3) and Article 6(10) of Regulation (EU) 2019/942 as well as Article 9(5), (7)(a), (11) and (13) and Article 20(2) of Regulation (EU) 2015/1222, with a view to decide on this matter within 6 months, i.e. by 4 October 2023.

ACER intends to launch a public consultation on the proposed amendments in July.
