Bundled Hub-to-Hub Product Eynatten

Oliver Altenhoff | GRI NW | 23. November 2012
Bundled Hub-to-Hub Product Eynatten

- Fluxys (Belgium)
- Open Grid Europe (Germany)
- Eynatten

**Features**

- Firm bundled day-ahead capacity at Eynatten in both flow directions
- First committed first served principle (12:00-16:00)
- Capacity amount varies daily, depending on physical situation in systems
- Capsquare platform is used
- This project does not have specific associated milestones as further developments will be made in the context of the European Capacity Platform Initiative
Use of the Product

- Currently 13 shippers registered
- Bookings and price spread exemplarily shown below for Feb 2012
Progress and lessons learned

- Product available since 15 September 2011
- H2H day-ahead product with highest acceptance
  - Connection of liquid markets (Eynatten connects UK via Zeebrugge with NCG market area)
  - Price spread between Zeebrugge Hub and NCG Hub: Need for day-ahead product bookings can be seen

- 1 Apr 2012: OGE increases amount of bundled day-ahead capacity by additional offer of unsold long-term capacity

**Average offer of bundled capacity**
