Preliminary observations with a view to a report on the annual accounts of the Agency for Cooperation of Energy Regulators for the financial year 2013

These preliminary observations were adopted by Chamber IV at its meeting of 29 April 2014.

INTRODUCTION

1. The Agency for Cooperation of Energy Regulators (hereinafter "the Agency", aka "ACER"), which is located in Ljubljana, was created by Regulation (EC) No 713/2009 of the European Parliament and of the Council². The Agency's main task is to assist National Regulatory Authorities in exercising, at Union level, the regulatory tasks that they perform in the Member States and, where necessary, to coordinate their action. Under the REMIT regulation³, the Agency was given new additional responsibilities, together with national regulatory authorities, regarding the monitoring of the European wholesale energy market⁴.

INFORMATION IN SUPPORT OF THE STATEMENT OF ASSURANCE

2. The audit approach taken by the Court comprises analytical audit procedures, direct testing of transactions and an assessment of key controls of the Agency's supervisory and control systems. This is supplemented by evidence provided by the work of other auditors (where relevant) and an analysis of management representations.

STATEMENT OF ASSURANCE

3. Pursuant to the provisions of Article 287 of the Treaty on the Functioning of the European Union (TFEU), the Court has audited:

OJ L 211, 14.8.2009, p. 1.

Regulation No 1227/2011 of the European Parliament and of the Council of 25 October 2011, OJ L 326, 8.12.2011, p. 1, which assigns an important role to the Agency in supervising trading in wholesale energy markets across Europe.

^{4 &}lt;u>Annex II</u> summarises the Agency's competences and activities. It is presented for information purposes.

- (a) the annual accounts of the Agency, which comprise the financial statements⁵ and the reports on the implementation of the budget⁶ for the financial year ended 31 December 2013, and
- (b) the legality and regularity of the transactions underlying those accounts.

The management's responsibility

- 4. The management is responsible for the preparation and fair presentation of the annual accounts of the Agency and the legality and regularity of the underlying transactions⁷:
- (a) The management's responsibilities in respect of the Agency's annual accounts include designing, implementing and maintaining an internal control system relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies on the basis of the accounting rules adopted by the Commission's accounting officer⁸; making accounting estimates that are reasonable in the circumstances. The Director approves the annual accounts of the Agency after its accounting officer has prepared them on the basis of all available information and established a note to accompany the accounts in which he declares, inter alia, that he has reasonable assurance that they present a true and fair view of the financial position of the Agency in all material respects.

Articles 39 and 50 of Commission Delegated Regulation (EU) No 1271/2013 (OJ L 328, 7.12.2013, p. 42).

⁵ These include the balance sheet and the economic outturn account, the cash flow table, the statement of changes in net assets and a summary of the significant accounting policies and other explanatory notes.

These comprise the budgetary outturn account and the annex to the budgetary outturn account.

The accounting rules adopted by the Commission's accounting officer are derived from the International Public Sector Accounting Standards (IPSAS) issued by the International Federation of Accountants or, where relevant, the International Accounting Standards (IAS)/International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board.

(b) The management's responsibilities in respect of the legality and regularity of the underlying transactions and compliance with the principle of sound financial management consist of designing, implementing and maintaining an effective and efficient internal control system comprising adequate supervision and appropriate measures to prevent irregularities and fraud and, if necessary, legal proceedings to recover funds wrongly paid or used.

The auditor's responsibility

- 5. The Court's responsibility is, on the basis of its audit, to provide the European Parliament and the Council⁹ with a statement of assurance as to the reliability of the annual accounts and the legality and regularity of the underlying transactions. The Court conducts its audit in accordance with the IFAC International Standards on Auditing and Codes of Ethics and the INTOSAI International Standards of Supreme Audit Institutions. These standards require the Court to plan and perform the audit to obtain reasonable assurance as to whether the annual accounts of the Agency are free from material misstatement and the transactions underlying them are legal and regular.
- 6. The audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the accounts and the legality and regularity of the underlying transactions. The procedures selected depend on the auditor's judgement, which is based on an assessment of the risks of material misstatement of the accounts and material non-compliance by the underlying transactions with the requirements in the legal framework of the European Union, whether due to fraud or error. In assessing these risks, the auditor considers any internal controls relevant to the preparation and fair presentation of the accounts, as well as the supervisory and control systems that are implemented to ensure the legality and regularity of underlying transactions, and designs audit procedures that are appropriate in the circumstances. The audit also entails evaluating the appropriateness of accounting policies, the

reasonableness of accounting estimates and the overall presentation of the accounts.

7. The Court considers that the audit evidence obtained is sufficient and appropriate to provide a basis for its statement of assurance.

Opinion on the reliability of the accounts

8. In the Court's opinion, the Agency's annual accounts present fairly, in all material respects, its financial position as at 31 December 2013 and the results of its operations and its cash flows for the year then ended, in accordance with the provisions of its Financial Regulation and the accounting rules adopted by the Commission's accounting officer.

Opinion on the legality and regularity of the transactions underlying the accounts

- 9. In the Court's opinion, the transactions underlying the annual accounts for the year ended 31 December 2013 are legal and regular in all material respects.
- 10. The comments which follow do not call the Court's opinions into question.

COMMENTS ON BUDGETARY MANAGEMENT

- 11. The Agency carried over 1,9 million euro or 56 % of total committed title II appropriations (Agency's building and associated costs), mainly related to the implementation of the REMIT regulation. This is an operational, multiannual activity and should have been budgeted under title III, a shortcoming which was rectified in subsequent commitment appropriations.
- 12.In addition, the Agency carried over 3,1 million euro or 91 % of total committed title III appropriations, also related to the implementation of the REMIT regulation. The exceptionally high rate of carry-over for title III is mainly

⁹ Article 107 of Regulation (EU) No 1271/2013.

due to some 3 million euro in additional funding received through an amended budget approved on 31 October 2013.

OTHER COMMENTS

13. The Agency held 5,5 million euro in cash at year-end, which included some 3 million euro relating to the late budget amendment (see paragraph 12). Nevertheless, average cash balances during the year were significantly higher than justified by operational requirements.

FOLLOW-UP OF PREVIOUS YEARS' COMMENTS

14. An overview of the corrective actions taken in response to the Court's comments from previous years is provided in *Annex I*.

Follow-up of previous years' comments

2012	The Agency carried over committed appropriations under title II (Agency's building and associated costs) of its budget amounting to 1,7 million euro, representing 81 % of total committed title II appropriations. 2012	The Agency held 4,2 million euro in cash at the year end, including the 2011 budget surplus of 1,6 million euro which resulted from an excessive call for funds in 2011 and was recovered by the Commission in January 2013. This is not consistent with a rigorous treasury management.	Ongoing	
2012	The audited recruitment procedures revealed shortcomings affecting transparency and an equal treatment of candidates: questions for interviews and tests were not set before the examination of the applications. INTRODUCTION

LEGAL BASIS

The European Agency for the Cooperation of Energy Regulators (hereinafter referred to as 'the Agency') with the seat in Ljubljana, Slovenia has been established by Regulation (EC) No 713/2009 of the European Parliament and of the Council of 13 July 2009 (the "founding Regulation").

The overall mission of the Agency, according to its founding Regulation, is to assist national regulatory authorities (NRAs) to perform their duties at the European Union level and to coordinate their actions whenever necessary.

The Agency's activities are also governed by the following regulations:

- Regulation (EU) No 838/2010 of 23 September 2010 of the European Parliament and of the Council on Inter-TSO Compensation Mechanism;
- Regulation (EU) No 1227/2011 of 25 October 2011 of the European Parliament and of the Council on wholesale energy market integrity and transparency;
- Regulation (EU) No 347/2013 of 17 April 2013 of the European Parliament and of the Council on guidelines for trans-European energy infrastructure and repealing Decision No 1364/2006/EC and amending Regulation (EC) No 713/2009, (EC) No 714/2009 and (EC) No 715/2009.

BACKGROUND INFORMATION

According to the founding Regulation, the Agency's governing bodies on administrative matters are the Administrative Board and the Director.

The Director of the Agency, Mr Alberto Pototschnig is, according to Article 17 of the founding Regulation, responsible for representing the Agency and in charge of its management.

The Administrative Board, chaired by Mr Piotr Woźniak, is composed of nine members with two members appointed by the European Parliament, five members appointed by the Council and two members appointed by the European Commission. Each member has an alternate.

The Administrative Board shall give an opinion on the final accounts of the Agency as drawn up by the Director in accordance with Article 24(4) and (5) of the founding Regulation.

The Agency's expenditures for 2013 were integrally financed through an annual subsidy from the general budget of the European Union.

In accordance with Article 43(1) of the Agency's Financial Regulation adopted by the Administrative Board with Decision AB n° 22/2011, the Administrative Board appointed Mrs Rodica Mandroc on 22 September 2011 as the Accounting and Budget Officer of the

Agency.

The following accounts together with a report on budgetary and financial management have been drawn up in accordance with Articles 92 – 99 of the Agency's Financial Regulation and Article 24 of the founding Regulation.

PART I - FINANCIAL STATEMENTS

The funds necessary to perform the Agency's operations are received in the form of an annual subsidy from the general budget of the European Union. The initial subsidy for the financial year 2013 amounted to €8,941,220 and has been upwardly adjusted by additional funding towards the end of the year amounting to €2,989,000 assigned to cover expenditure related to the energy market monitoring project. The approval and receipt of this additional funding by the end of October 2013 had a significant impact on the economic and budgetary result for the financial year ending 31 December 2013. The economic outturn account for the year ending 31 December 2013 shows a large positive result of €4.7m (€1.2m in 2012) mainly due to the late receipt of the additional funding whose effective expenditure had to be carried forward in the 2014 financial year.

The impact of the additional funds can be as well observed in the closing balance of the cash and cash equivalents for the financial year showing a closing amount of €5.4m (€2.4 in 2012).

The impact on the budgetary result is presented and detailed in the second part of the annual accounts report.

The following financial statements and notes have been drawn up for the financial year ending 31 December 2013.

NOTES TO THE FINANCIAL STATEMENTS

ACCOUNTING POLICIES AND PRINCIPLES

The objective of the financial statements in general is to provide users with an overview on the financial performance, position and cash flow of an entity. For a public entity like the Agency this objective is more specific as the information contained is used in the decision making process as well as to demonstrate the accountability of the Agency towards the resources entrusted to it.

The financial statements for the year 2013 were prepared on the basis of the European Commission Accounting Rules as laid down by the accounting officer of the European Commission, applicable to the specific environment of the European Union and which are based on the International Public Sector Accounting Standards and International Financial Reporting Standards. The financial statements are prepared on an accrual basis whereas the reports on the implementation of the budget are prepared on a cash basis. Reconciliation between the two methods is presented in the second part of this report.

The accounting system of the Agency contains general and budget accounts with the functional currency being Euro. The budget accounts provide a detailed picture on the implementation of the budget and are based on cash accounting principles. The general accounts prepared on an accrual accounting basis present the financial performance and position of the Agency as at the end of the financial year.

CURRENCY AND BASIS FOR CONVERSION

Functional and reporting currency

The functional and reporting currency used in the preparation of the financial statements for the Agency is Euro.

Transactions

Foreign currency transactions were converted into Euros in accordance with Article 6 of the general Implementing Rules using the official European Commission exchange rates of the day on which the payment order was drawn up.

Foreign exchange gains and losses resulting from the settlement of transactions in foreign currency are recognised in the economic outturn account.

CHART OF ACCOUNTS

The chart of accounts used by the Agency follows the structure of the chart of accounts used by the European Commission (PCUE).

NON-CURRENT ASSETS

Assets are resources controlled by the Agency as a result of past events from which future economic benefits or service potential is expected to flow.

Fixed assets are assets with a useful life of more than one reporting period. The valuation of fixed assets in the financial statements of the Agency is based at their acquisition price. The book value of these assets is equal to their acquisition price increased or decreased by revaluations, decreased by depreciation and amounts written off.

For the record of fixed assets the Agency uses ABAC Assets2 as inventory application, which is an integrated part of the ABAC platform. Two main categories can be distinguished: intangible and tangible assets.

4. Intangible fixed assets

Intangible fixed assets recorded in the inventory of the Agency consist of assets without physical substance and are represented by acquisitioned software and internally generated intangible assets still under construction at year end.

CURRENT ASSETS

Receivables

Receivables are carried at original invoice amount less any write-down for impairment. A write-down for impairment of receivables is established only where there is objective evidence that the Agency will not be able to collect all amounts due according to the original terms of the receivables, with the impaired amount being recognised in the economic outturn for the year.

6. Short-term receivables

The Agency benefits from a direct exemption for VAT from the Slovenian state for purchases above the threshold amount of €60. For purchases where the direct exemption is impracticable to obtain, the VAT is refunded by the Slovenian state on a quarterly basis.

The advance payment made to one of the contractors and recorded as short-term prefinancing relates to services expected to be provided in the course of 2014 by the respective contractor.

Salary advances paid to staff members are processed and/or recovered by the Pay Master Office (PMO) from the staff member salary in the month following that of the payment.

Deferred charges consist of prepayments made during the year mainly on subscriptions and insurance premiums, recovery of overpaid salaries of staff members, December related bank charges and deposit made for the rental of furnished offices from Poslovni Center za Opravljanje Celovitih Pisarniskih Storitev d.o.o.

Overpaid salaries to staff members derive from the application of Council Regulation 1416/2013 from 17 December 2013 on the adjustment of countries' correction coefficient with effect from 1 July 2013. Effective recovery was initiated in February 2014.

Accrued expenses relate mainly to goods or service delivered at the end of the financial year but for which the invoices have not been received amounting to €397,772.99. BUDGETARY MANAGEMENT

Budgetary principles

The budget of the Agency has been established in compliance with the principles of unity, budgetary accuracy, annuality, equilibrium, unit of account, universality, specification, sound financial management and transparency, as set out in the Agency's Financial Regulation.

Subsidy from the general budget of the European Union

Commitment and payment appropriations amounting to €11,930,220 were allocated to the Agency in 2013 from the general budget of the European Union. This included a budget amendment of €2,989,000 and was allocated as follows:

ACER Budget 2013	€
Title I	5,094,799
Title II	3,399,009
Title III	3,436,412
Total	11,930,220

Budget and accounting management systems

In order to record and keep track of the budgetary transactions, the Agency uses ABAC, the same financial system used by the European Commission, with the SAP system integrated as back-end for the accounting part. The Business Objects web platform is used as the reporting tool. The workflow access in ABAC allows for an instant audit trail and provides the authorising officer with an overview on the segregation of duties compliance as required under the 'four-eyes' principle. The inventories are managed by the Agency in accordance with its Financial Regulation and the system used to record inventory items is ABAC Assets2.

Nomenclature

The nomenclature of appropriations is as follows:

C1: Appropriations voted in the current budget

C4: Internal assigned revenue (current year)

C8: Commitments carried forward corresponding appropriations

IC1: Universal income voted in the budget

IC4: Internal assigned revenue

REVENUE

For the financial year ending 31 December 2013 the Agency's budget was funded by a subsidy from the general European Union budget amounting to €11,930,220. On top of the annual subsidy an amount of €4,198.052 was recognised under the fund source IC4 as

assigned revenue stemming from recovered overpaid amounts.

Non-budgetary revenue in the form of bank interest received on the daily account balance amounting to €3,060.03 and recorded in the accounts of the Agency will be returned to the European Commission according to Article 51 of the Agency's Financial Regulation. Also to be returned to the European Commission is the positive result of the budgetary outturn amounting to €415,923.78, containing the unused 2013 appropriation of €297,581.49, the cancelled appropriations carried forward from 2012 amounting to €118,814.39 and an exchange rate loss of €472.10.

Title 1

The budget allocated under Title 1 was implemented to a level of 95.45% during the financial year 2013. The budgetary reserve set aside for salaries indexation was cancelled as the proposed indexation has not been approved.

Title 2

The Agency managed to finalise most of the tender procedures launched during the financial year 2013 and this resulted in a high implementation of the allocated budget under Title 2.

A few large and complex tender procedures also lengthy in terms of processing time, led to a low implementation of the payment appropriations resulting in the need to carry forward these funds into the following financial year.

Title 3

The budget amendment requested during 2013 necessary to ensure continuity in the implementation of Regulation (EU) No 1227/2011 on Wholesale energy market integrity and transparency, received towards the end of October 2013. The Agency managed to place all the planned orders before the end of the year, which resulted in a high implementation of the commitment appropriation. However, the late approval of the budget amendment resulted in the need to carry forward these funds into the following year to honour the legal obligations and the implementation of the payment appropriations for this title remained low.

Title 1

Appropriations carried forward under Title 1 related mainly to recruitment costs for the vacant positions published during 2012, staff training costs, schooling fees and missions expenditure. The majority of cancelled appropriation related to the decision to stop the payment of schooling top-up fees. The cancelled amounts will be returned to the European Commission during 2014.

Title 2

Most of the appropriations carried forward under this title were consumed in order to honour obligations the Agency had towards its suppliers. The unused portion was cancelled and is to be returned to the European Commission.

Title 3

Appropriations carried forward under this Title to cover outstanding operational expenditure from the financial year 2013 resulted in a minor saving given the margin recorded on mission orders which was no longer needed as most claims where more or less matching the orders. A minor saving was also recorded under the production of reports leading to an overall implementation of the carried forward budget under this Title of 90.81%.

Budget transfers

During the financial year 2013 a number of budgetary transfers took place in order to reallocate resources from areas where budgetary savings were identified towards areas of scarce resources to ensure the achievement of the year's objectives. There were 12 lots of approved budgetary transfers made within and between titles including one budget transfer above the 10% limit as approved by the Administrative Board.

The following table presents the detailed budgetary transfers made during the financial year.
