

## ACER webinar on amendments to the European electricity grid connection network codes

19 July 2023 | 09.30 – 11.00 CET

Online /MS Teams platform

DRAFT AGENDA		
09.15 – 09.30	<b>Webinar open for log-in</b>	Starts promptly at 09.30
09.30 – 09.50	<b>Process for submitting responses to the public consultation and timeline for amendments</b> ACER	
09.50 – 10.25	<b>Proposed amendments to the grid connection network codes</b> ACER	
10.25 – 10.55	<b>Q&amp;A discussion on the topics presented</b> Via MS Teams	
10.55 – 11.00	<b>Closing Remarks</b> ACER	

**Webinar Objective:** Important developments in the policies of decarbonisation of the European Union (EU) energy and transport sectors have taken place since the development of the first European grid connection network codes in 2012.

In the framework of the Grid Connection European Stakeholder Committee, the European Commission proposed that ACER initiates the process to amend the existing European grid connection network codes in September 2022.

ACER is running a Public Consultation from 17 July to 25 September 2023 on concrete amendment proposals regarding the two network codes: the Network Code on Requirements for Grid Connection of Generators; and the Network Code on Demand Connection.

The objectives of this ACER webinar are to:

- present ACER's proposed amendments to the grid connection network codes;
- outline the purpose and timeline of the amendments process and explain the public consultation process; and
- address questions

Webinar participants are encouraged to pre-read the [consultation documents](#) in advance of the webinar.
