	Q&A	
11.40 – 11.55	Other proposed amendments ACER	
	Q&A	
11.55 – 12.00	Closing remarks ACER	

Workshop Objectives:

ACER will present the content and questions of its [public consultation](#) on the amendments to the harmonised allocation rules (HAR) for long-term transmission rights, proposed by the Transmission System Operators (TSOs).

The TSOs submitted to ACER their first proposal for amendments to the HAR on 1 March 2023. On 1 August, the TSOs completed their proposal with the second submission, which included the amendments to collaterals. ACER will decide on the proposed amendments in a single decision by the end of 2023.
