

**6<sup>th</sup> ACER - ENTSO-E workshop: electricity long-term flow-based allocation**

**Friday, 22 March 2024 | 09:00 - 12:00 CET**

Online, MS Teams platform

**AGENDA**

Indicative time	Webinar items	
08:50 - 09:00	Webinar open for log-in	Starts promptly at 09:00
09:00 - 09:10	<b>Introductory Remarks</b> Zoran VUJASINOVIC, ACER	
09:10 - 09:20	<a href="#">Long-term flow-based allocation: implementation - timeline and basic information</a> Jim VILSSON, ENTSO-E	
09:20 - 09:50	<a href="#">Long-term flow-based allocation: Simulation of results</a> Cyriac DE VILLENFAGNE, ENTSO-E	
09:50 - 10:20	<a href="#">Discussion</a>	
10:20 - 10:40	<a href="#">ACER's views</a> Martin POVH, ACER	
10:40 - 11:00	<a href="#">Market participants' views</a> Jerome LE PAGE, EFET	
11:00 - 11:50	<a href="#">Discussion</a>	
11:50 - 12:00	<b>Closing Remarks</b> Christophe GENGE-CREUX, ACER	

**Webinar objective**

This workshop aims to:

- Provide stakeholders with in-depth understanding of the long-term flow-based allocation process.
- Present and discuss the simulation results.
- Introduce the expected timeline for the go-live of the single allocation platform that will support the long-term flow-based capacity allocation process.
