## Webinar objective

ACER will present the conclusions of its [first report on the analysis of the European LNG market](#), published on 19 April 2024.

This LNG report focuses on how the global LNG market has reshaped since the Russian invasion of Ukraine in 2022 and the evolving role of LNG in the European energy market.

The report outlines the most recent dynamics in the global LNG market, provide insights into the latest trade developments and LNG contractual arrangements, and discuss regulatory considerations.

### With this webinar, ACER will:

- present the main findings of the report;
- highlight recent developments in the global LNG markets;
- discuss the LNG outlook for Europe by 2030;
- host a panel discussion with selected speakers; and
- address stakeholders' questions.
