Workshop objective

This joint workshop aims to:

- present the latest developments in REMIT implementation and the process for adopting the secondary legislation;
- exchange views on how data sharing can better support market transparency;
- share progress on enhancing market integrity through multi-stage monitoring; and
- address stakeholders' questions and encourage their active involvement in REMIT implementation and the development of ACER's guidance documents.

Pre-reading material

Participants are encouraged to read the following before the workshop:

- [Revised REMIT Regulation](#)
- [REMIT Data Reference Centre](#) and [Inside Information Access Point](#)
- [Report on PPATs' arrangements, systems and procedures and their effectiveness](#)
- [Report on NRAs' activities related to suspicious transactions and order reports](#)
- [Commission's public consultation on new energy market integrity and transparency rules](#)
