ACER public consultation: Guideline on REMIT transaction reporting

Fields marked with * are mandatory.

Introduction

Background

Regulation (EU) No 1227/2011 on wholesale energy market integrity and transparency ("REMIT") establishes a framework to ensure the integrity and transparency of wholesale energy markets across the Union.

In 2024, REMIT was revised, introducing new and updated data reporting requirements. These changes were further specified in Regulation (EU) No 2026/256 on data reporting (recast REMIT Implementing Regulation), which sets out detailed rules on data reporting obligations, market participant registration, inside information disclosure, and monitoring procedures to ensure consistent enforcement of REMIT across EU wholesale energy markets.

Scope of the Guideline on transaction reporting

The revised REMIT introduced a new possibility for ACER to develop guidelines and recommendations to national regulatory authorities or market participants (Article 16b REMIT).

ACER has developed the Guideline on REMIT Transaction Reporting to facilitate the understanding of the data reporting rules and requirements under REMIT and the REMIT Implementing Regulation. The purpose of the Guideline on REMIT Transaction Reporting is to separate the technical guidance on how to report data to ACER, addressed in ACER's Transaction Reporting User Manual (TRUM), from the more policy-oriented aspects of data reporting, now consolidated into the Guideline on REMIT Transaction Reporting.

You can download the draft Guideline on REMIT transaction reporting here:

DRAFT_Guideline_on_REMIT_Transaction_Reporting.docx

Objective of the consultation

According to the revised REMIT, ACER shall conduct public consultations regarding the guidelines which it issues.

The objective of this consultation is to gather valuable feedback, needs and views from the public to refine the structure and content of the proposed guideline.

The survey is structured in dedicated sections following the chapters of the proposed guideline. Respondents are invited to submit their feedback on each section via the open questions below and/or by uploading documents with revision proposals in the dedicated section at the end of the survey.

Contact and deadline

The contact point for this consultation is: REMIT.Consultations@acer.europa.eu

All respondents are invited to submit their comments by 12 June 2026, 17:00 (CET)

Respondent's data

*** Name and surname**

This information will not be published

[redacted]

*** Email address**

This information will not be published

[redacted]

Name of organisation (if applicable)

ENTSO-E

Type of organisation (if applicable)

Multiple values are accepted

- [x] Market participant (including association)
- [ ] Organised marketplace (including association)
- [x] Inside information platform (including association)
- [x] Transmission system operator (including association)
- [ ] National regulatory authority
- [ ] Academia/research institution
- [ ] Other (please specify)

*** Country**

- (•) EU-27
- ( ) Other

Data protection, confidentiality and publication of results

Data protection

ACER will process personal data of the respondents in accordance with Regulation (EU) 2018/1725, taking into account that this processing is necessary for performing ACER's consultation tasks.

More information on data protection is available in ACER's data protection notice and on ACER's website.

ACER will not publish personal data.

* I have read and understood the Data Protection Notice on External Webinars / Online Events and Data Protection Notice on Interactions with Stakeholders.

I confirm

Confidentiality and publication

Following this consultation, ACER will make public:

- the number of responses received
- company names, unless they should be considered as confidential
- all non-confidential responses
- ACER's evaluation of responses. In the evaluation, ACER may link responses to specific respondents or group of respondents.

You may request that the name of your company or any information provided in your response is treated as confidential. To this aim, you need to explicitly indicate below whether your response contains confidential information.

* Do you consent to the publication of the name of the organisation?

- (•) Yes
- ( ) No

* Do you consent to the publication of the provided answers?

Please, note that your answer, without your name and organization, may be shared with the EU institutions and national authorities.

- (•) Yes
- ( ) No

* Does your submission contain confidential information?

Please note that submissions containing confidential information will not be published.

- ( ) Yes
- (•) No

Section I: Introduction and scope

This section covers the following topics:

- Legal framework
- Scope and purpose of the Guideline on REMIT transaction reporting
- Target audience
- Transaction reporting and market monitoring
- ACER contacts

Do you have any comments on the guidance provided in this chapter?

Section II: Reporting obligations

II.1 What to report?

This section covers the following topics:

- Transactions to be reported on a continuous basis
- Transactions to be reported on a periodic basis
- Transactions to be reported at the request of ACER
- Reporting requirements regarding transactions executed via a trade-matching system
- Definition of standard and non-standard contracts
- Distinction between product, contract and transaction for standard contracts
- Lifecycle events
- Back-loading requirement

Do you have any comments on the guidance provided in this chapter?

Paragraph 64 states that the details of primary capacity allocations where no bids have been submitted and no capacity has been allocated are to be reported upon request. However, it remains unclear how ACER would become aware of such situations in order to issue a request, given that by definition no allocation data would have been submitted. This raises the question of whether ACER intends to rely on ad hoc or random requests to verify the occurrence of such cases. We kindly ask ACER to clarify the mechanism through which it would identify these situations and trigger the corresponding reporting obligation, in order to ensure a consistent and practical implementation.

II.2 Who shall report?

This section covers the following topics:

- Reporting parties
- Who shall report transactions concluded on an organised marketplace
- Who shall report transactions concluded outside an organised marketplace
- Who shall report transportation transactions
- Who shall report storage transactions

- Who shall report lifecycle events
- Wholesale energy products already reported in accordance with MiFIR or EMIR

Do you have any comments on the guidance provided in this chapter?

Paragraph 178 states that market participants should provide to the OMP information not already available to it; however, it remains unclear how this obligation should be implemented in practice, in particular how market participants are expected to identify which data is missing and whether the OMP is responsible for actively requesting or specifying such information, as market participants may not have sufficient visibility on the data held by the OMP. Furthermore, the paragraph links the timing of the provision of such information to the reporting deadlines set out in Article 10 of the REMIT Implementing Regulation, which refers to continuous reporting, and not to periodic reporting. We therefore understand this obligation does not apply to OMPs reporting of transactions covered by periodic reporting. It seems appropriate to clarify these aspects in the Guidelines.

In addition, if market participants are allowed to provide the required information to OMPs only at the reporting deadline, OMPs would have virtually no time to process such data and comply with their reporting obligations; therefore, the rules should either require market participants to submit the necessary information sufficiently in advance of the deadline or provide for an adjusted reporting timeline for OMPs to ensure effective and reliable data processing.

Regarding paragraph 80, this refers to a specific subset of trade-matching systems used by two or more OMPs where the relevant information is not entirely available to the OMPs, yet the scope and definition of this subset remain unclear, including which systems are covered, what criteria define “used by two or more OMPs”, and how these cases should be distinguished from other trade-matching systems.

Section III: Start of reporting and reporting frequency

This section covers the following topics:

- Start of reporting
- Frequency of reporting

Do you have any comments on the guidance provided in this chapter?

Other comments and file upload

Are there any other proposals you would like to share with ACER? (e.g. topics that should be covered, amendments etc.)

You can upload your proposals in Word or PDF here.

Please ensure that all your proposed amendments are in one document, clearly identifying each section affected. Track changed versions of the document are also welcome.

Maximum file size is 1 MB. If your file is larger, please use the functional mailbox: REMIT. Consultations@acer.europa.eu

Thank you for your contribution.
