ACER public consultation: Guideline on REMIT transaction reporting

Fields marked with * are mandatory.

Introduction

Background

Regulation (EU) No 1227/2011 on wholesale energy market integrity and transparency ("REMIT") establishes a framework to ensure the integrity and transparency of wholesale energy markets across the Union.

In 2024, REMIT was revised, introducing new and updated data reporting requirements. These changes were further specified in Regulation (EU) No 2026/256 on data reporting (recast REMIT Implementing Regulation), which sets out detailed rules on data reporting obligations, market participant registration, inside information disclosure, and monitoring procedures to ensure consistent enforcement of REMIT across EU wholesale energy markets.

Scope of the Guideline on transaction reporting

The revised REMIT introduced a new possibility for ACER to develop guidelines and recommendations to national regulatory authorities or market participants (Article 16b REMIT).

ACER has developed the Guideline on REMIT Transaction Reporting to facilitate the understanding of the data reporting rules and requirements under REMIT and the REMIT Implementing Regulation. The purpose of the Guideline on REMIT Transaction Reporting is to separate the technical guidance on how to report data to ACER, addressed in ACER's Transaction Reporting User Manual (TRUM), from the more policy-oriented aspects of data reporting, now consolidated into the Guideline on REMIT Transaction Reporting.

You can download the draft Guideline on REMIT transaction reporting here:

DRAFT_Guideline_on_REMIT_Transaction_Reporting.docx

Objective of the consultation

According to the revised REMIT, ACER shall conduct public consultations regarding the guidelines which it issues.

The objective of this consultation is to gather valuable feedback, needs and views from the public to refine the structure and content of the proposed guideline.

The survey is structured in dedicated sections following the chapters of the proposed guideline. Respondents are invited to submit their feedback on each section via the open questions below and/or by uploading documents with revision proposals in the dedicated section at the end of the survey.

Contact and deadline

The contact point for this consultation is: REMIT.Consultations@acer.europa.eu

All respondents are invited to submit their comments by 12 June 2026, 17:00 (CET)

Respondent's data

*** Name and surname**

This information will not be published

[redacted]

*** Email address**

This information will not be published

[redacted]

Name of organisation (if applicable)

Norlys Energy Trading A/S

Type of organisation (if applicable)

Multiple values are accepted

- [x] Market participant (including association)
- [ ] Organised marketplace (including association)
- [ ] Inside information platform (including association)
- [ ] Transmission system operator (including association)
- [ ] National regulatory authority
- [ ] Academia/research institution
- [ ] Other (please specify)

*** Country**

- (•) EU-27
- ( ) Other

Data protection, confidentiality and publication of results

Data protection

ACER will process personal data of the respondents in accordance with Regulation (EU) 2018/1725, taking into account that this processing is necessary for performing ACER's consultation tasks.

More information on data protection is available in ACER's data protection notice and on ACER's website.

ACER will not publish personal data.

* I have read and understood the Data Protection Notice on External Webinars / Online Events and Data Protection Notice on Interactions with Stakeholders.

I confirm

Confidentiality and publication

Following this consultation, ACER will make public:

- the number of responses received
- company names, unless they should be considered as confidential
- all non-confidential responses
- ACER's evaluation of responses. In the evaluation, ACER may link responses to specific respondents or group of respondents.

You may request that the name of your company or any information provided in your response is treated as confidential. To this aim, you need to explicitly indicate below whether your response contains confidential information.

* Do you consent to the publication of the name of the organisation?

- (•) Yes
- ( ) No

* Do you consent to the publication of the provided answers?

Please, note that your answer, without your name and organization, may be shared with the EU institutions and national authorities.

- (•) Yes
- ( ) No

* Does your submission contain confidential information?

Please note that submissions containing confidential information will not be published.

- ( ) Yes
- (•) No

Section I: Introduction and scope

This section covers the following topics:

- Legal framework
- Scope and purpose of the Guideline on REMIT transaction reporting
- Target audience
- Transaction reporting and market monitoring
- ACER contacts

Do you have any comments on the guidance provided in this chapter?

No comments

Section II: Reporting obligations

II.1 What to report?

This section covers the following topics:

- Transactions to be reported on a continuous basis
- Transactions to be reported on a periodic basis
- Transactions to be reported at the request of ACER
- Reporting requirements regarding transactions executed via a trade-matching system
- Definition of standard and non-standard contracts
- Distinction between product, contract and transaction for standard contracts
- Lifecycle events
- Back-loading requirement

Do you have any comments on the guidance provided in this chapter?

On chapter 2.1.1.3., we ask that ACER makes explicit how to report contracts for electricity storage with capacity <= 10 MW, when both production and consumption is covered by the same contract. Would such contract be reportable for the consumption due to the 600GWh threshold not being applicable? Or would t he 10 MW threshold take precedence?

II.2 Who shall report?

This section covers the following topics:

- Reporting parties
- Who shall report transactions concluded on an organised marketplace
- Who shall report transactions concluded outside an organised marketplace
- Who shall report transportation transactions
- Who shall report storage transactions
- Who shall report lifecycle events
- Wholesale energy products already reported in accordance with MiFIR or EMIR

Do you have any comments on the guidance provided in this chapter?

On chapter 2.2.4, we ask ACER to clarify

1) Where e.g. primary allocations take place outside of an OMP, possibly due to a lack of registration by the should-be-OMP, shall the market participant then report such transactions? Or shall the market participant instead, to the best of its ability, highlight to the should-be-OMP, or maybe ACER, its perceived obligation?

2) Where primary capacities on OMPs are concerned, the responsibility of the Market Participant as a person required to report. A larger OMP informs us that ACER will accept one-sided reporting, i.e. on behalf of the TSOs from the OMP. This completely sidelines us from the reporting process, and there is nothing we can do to verify completeness, accuracy or timeliness. Will ACER please make explicit, the policy on this matter, that is a) whether it is true that one-sided reporting is acceptable, and b), the responsibility of the party not explicitly being reported on behalf of in such situation.

3) ACER mentions for secondary capacities between market participants that one-sided reporting is accepted. Because this is a deviation from the standard, we would like ACER to clarify if two-sided reporting is also accepted, or if only one-sided reporting will be acceptable.

Section III: Start of reporting and reporting frequency

This section covers the following topics:

- Start of reporting
- Frequency of reporting

Do you have any comments on the guidance provided in this chapter?

No comments

Other comments and file upload

Are there any other proposals you would like to share with ACER? (e.g. topics that should be covered, amendments etc.)

No comments

You can upload your proposals in Word or PDF here.

Please ensure that all your proposed amendments are in one document, clearly identifying each section affected. Track changed versions of the document are also welcome.

Maximum file size is 1 MB. If your file is larger, please use the functional mailbox: REMIT.Consultations@acer.europa.eu

Thank you for your contribution.
