Dear, You might have noticed that we have aligned our reaction as a Gasunie Group (GUD, GTS, BBLC) which has led to a copy/paste error in the email I have sent you. In the email below this is corrected but you will understand that we want to stress the importance of this matter and our strong support for Prisma as a booking platform.

With kind regards, [REDACTED]

Ladies and gentlemen,

the Agency for the Cooperation of Energy Regulators invited third parties to submit their views with respect to the Agency's proceeding to decide on the single capacity booking platform(s) to be used at the border between Germany and Poland, at the "Mallnow" physical interconnection point ("Mallnow IP") and at the "GCP" virtual interconnection point ("GCP VIP").

On behalf BBL Company VOF we would like to respond as follows.

The PRISMA European Capacity Platform GmbH ("PRISMA") has already replied to your public consultation. As a Shareholder of PRISMA we fully support the feedback PRISMA has given. Therefore please find attached an identical consultation document equal to the feedback PRISMA provided.

With our direct participation in your consultation process we would like to underline the importance of a new decision in the upcoming tender process and point out the significance and accuracy of the comments PRISMA has given.

With kind regards, on behalf of BBL Company,
