

ACER initiates procedure ref. ACER-ELE-2023-007 on amendments to the Harmonised Allocation Rules (HAR) methodology

On **1 March 2023**, all transmission system operators (TSOs), through their European network, ENTSO-E, submitted to ACER their proposal for amendments to the Harmonised Allocation Rules (HAR) methodology pursuant to Article 51 of Regulation (EU) 2016/1719.

With their submission, all TSOs also informed ACER that they will complement this proposal for amendments to the HAR by a second proposal for amendments to the HAR, concerning provisions on collaterals, that they intend to submit this second amendment proposal by **1 June 2023**, and that they would welcome ACER taking one decision on the two amendment proposals by **27 October 2023**.

ACER has commenced the procedure ref. ACER-ELE-2023-007 under Article 5(2) of Regulation (EU) 2019/942 and Articles 4(6)(d), 4(12) and 51 of Regulation (EU) 2016/1719. This procedure will cover both the amendment proposal submitted on 1 March 2023 and the one expected by 1 June 2023, with a view to decide on both proposals in a single decision by 27 October 2023.

As part of this procedure, ACER will launch a public consultation on the proposed amendments of the HAR, following the submission of the amendment proposal concerning collaterals. More information on the consultation will be published on ACER's website.
