-------	-----------	-------------

Emergency Preparedness	2023	The demand for water, one of the fundamental necessities of life, is growing at a faster rate than the world population. The essays in this book assess current challenges and highlight the need for more water-efficiency and customer-driven technological innovation in various fields. They also provide solutions, show best-practice examples, and find answers to some of the most pressing issues in water management around the globe.
Entrepreneurship needs freedom	2013	The book uses initiatives of the European Parliament benefitting SMEs to illustrate the European community's legislation process on the basis of practical examples. It thus functions in two ways: On the one hand it promotes SMEs as an engine of growth and introduces concrete measures to support them. On the other hand it allows European citizens to follow and understand the legislative
Telekommunikation I till V	1997, 1999, 2000, 2006, 2010	An observation of the rapid development in the telecommunications sector: from the beginnings of the mobile world. Smartphones, applications and mobile internet are now standard in the world. Telecommunications experts provide an overview of the future challenges and trends on the mobile communications market.
