

GRI SSE

17th Stakeholder Group meeting

12 December 2014, Bucharest

1. PRISMA in 2014
2. Future cooperation

PRISMA in 2014

PRISMA connecting European gas markets

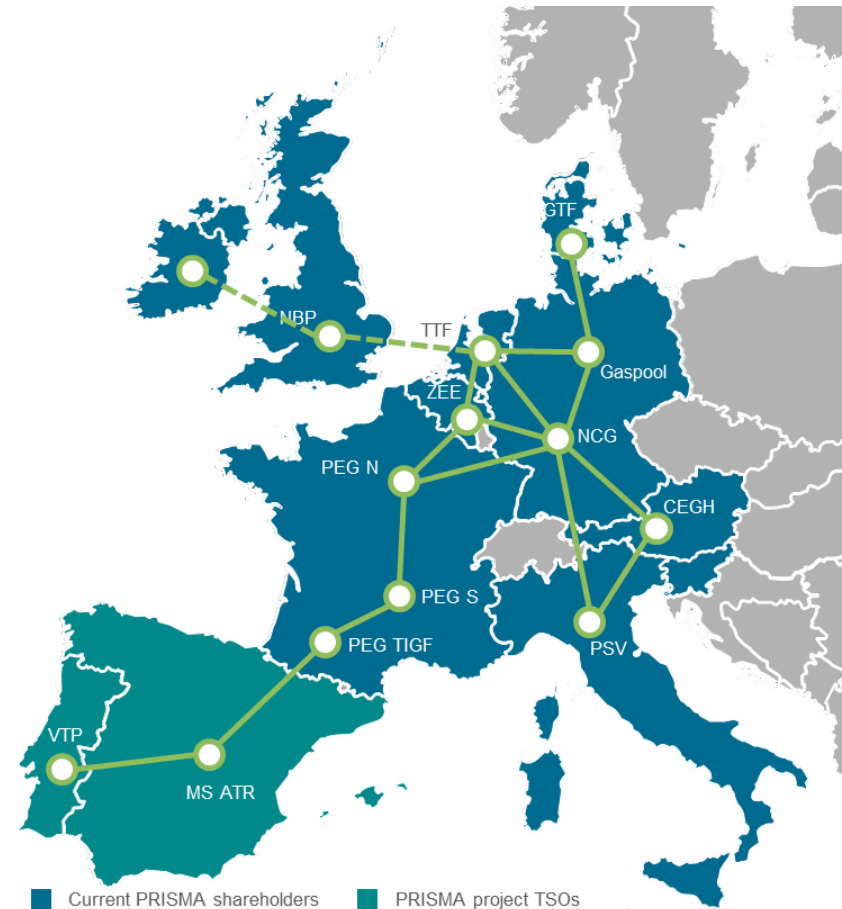

Overall results

- More than **400** registered shippers
- More than **1,400** users
- **33** connected TSOs
- More than **1,500** network point
- More than **120,000** performed auctions
- More than **400** concluded secondary trades

In the Region SSE

- PLINOVODI had the first auctions via PRISMA on 17.11.2014. PLINOVODI already auctions daily products
- More than **260 users** already using PRISMA
- More than **100 Shippers** already using PRISMA
- More than **25,000** performed auctions

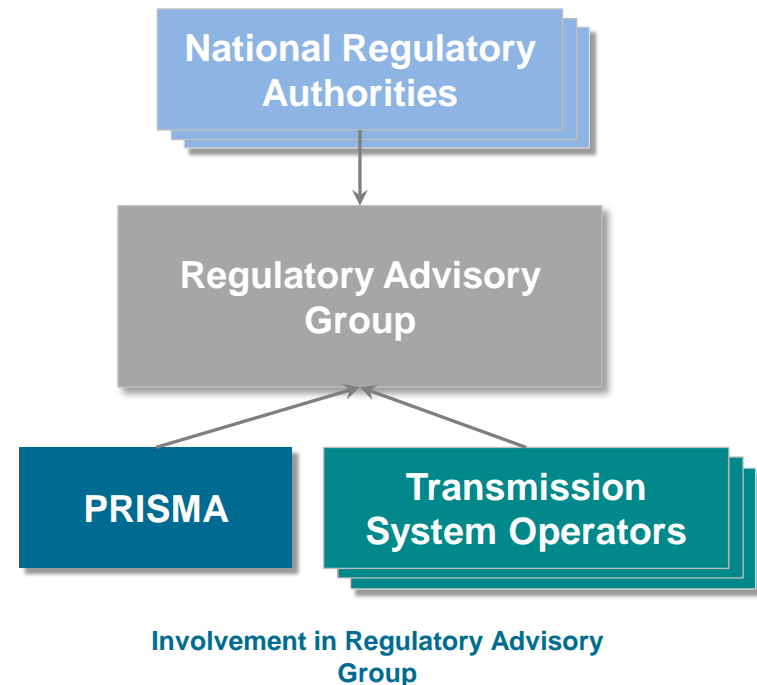

The Transmission System Operators and National Regulatory Authorities directly involved in PRISMA founded at the beginning of 2014 the **PRISMA Regulatory Advisory Group**.

The main tasks of the Regulatory Advisory Group are:

- inform and discuss with NRAs about future developments;
- inform and discuss with NRAs about future changes of General Terms and Conditions of PRISMA;
- discuss open issues related to the allocation of transmission capacity at interconnection points between entry-exit systems that need harmonization of different national regulations;
- receive information from NRAs about developments in EU regulation that could have impact on PRISMA

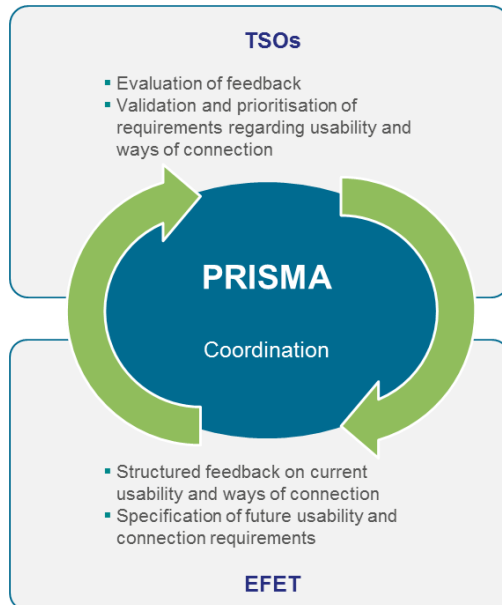

Cooperation with Shippers

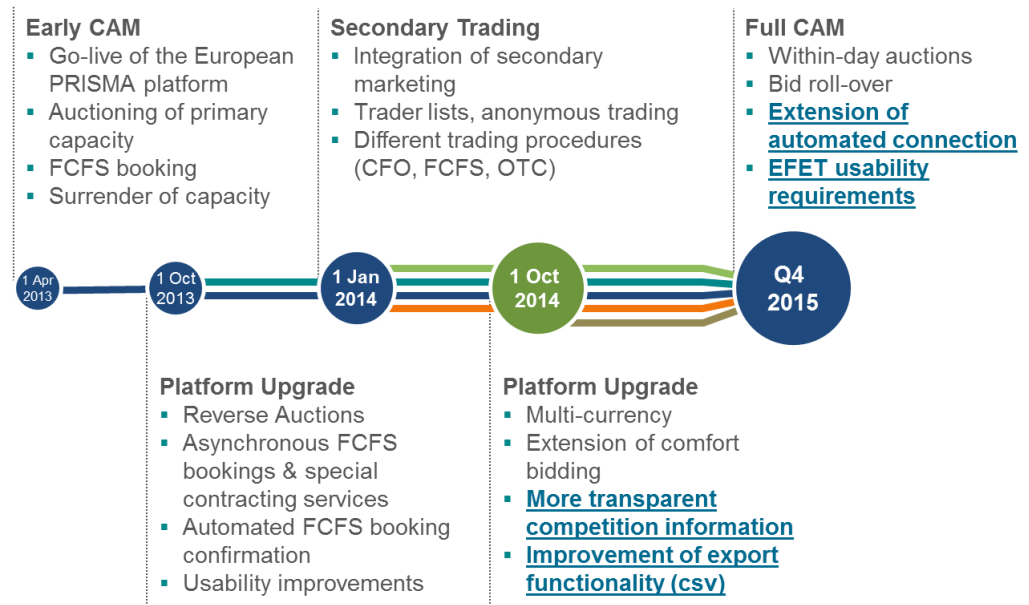

PRISMA and its TSOs have developed during 2014 a **strong and fruitful cooperation with traders community** thanks to:

- Public consultations on PRISMA's General Terms and Conditions and on the implemented functionalities
- Traders' events
- Cooperation with EFET to identify possible improvements

Cooperation with EFET

Development plan

Future developments in PRISMA

- Pilot Project with **Net4Gas**
 - Registration process will start at the January 2015
 - In February 2015 daily auctions will take place
 - Net4Gas will also offer yearly and monthly products
 - Firm capacity will be offered
- PRISMA is in discussion with other TSOs in the SSE region
- PRISMA is also in discussion with other European TSOs
