	Q&A, discussion	
15.50 - 15:55	Q&A on other topics, discussion	
15.55 - 16.00	Closing	

Webinar Objective: ACER presents and discusses the amendment of the EU electricity balancing pricing methodology with stakeholders, in order to take informed decisions.

On 26 August 2021, all Transmission System Operators' (TSOs) submitted to the European Union Agency for the Cooperation of Energy Regulators (ACER) their proposal for the amendment of the methodology for pricing balancing energy and cross-zonal capacity used for the exchange of balancing energy or operating the imbalance netting process in accordance with Article 30(1) of the Commission Regulation (EU) 2017/2195 of 23 November 2017 establishing a guideline on electricity balancing (EB Regulation).

ACER launched on 13 October 2021 a public consultation in order to collect comments from stakeholders on these methodologies and take informed decisions. Find out more about the [Public Consultation](#).

European Union Agency for the Cooperation
of Energy Regulators

In this public workshop, ACER will present the proposal submitted by the TSOs and ACER's view on it, providing clarifications on the questions of the public consultation, as well as seeking stakeholders' input on the topics of their interest.
