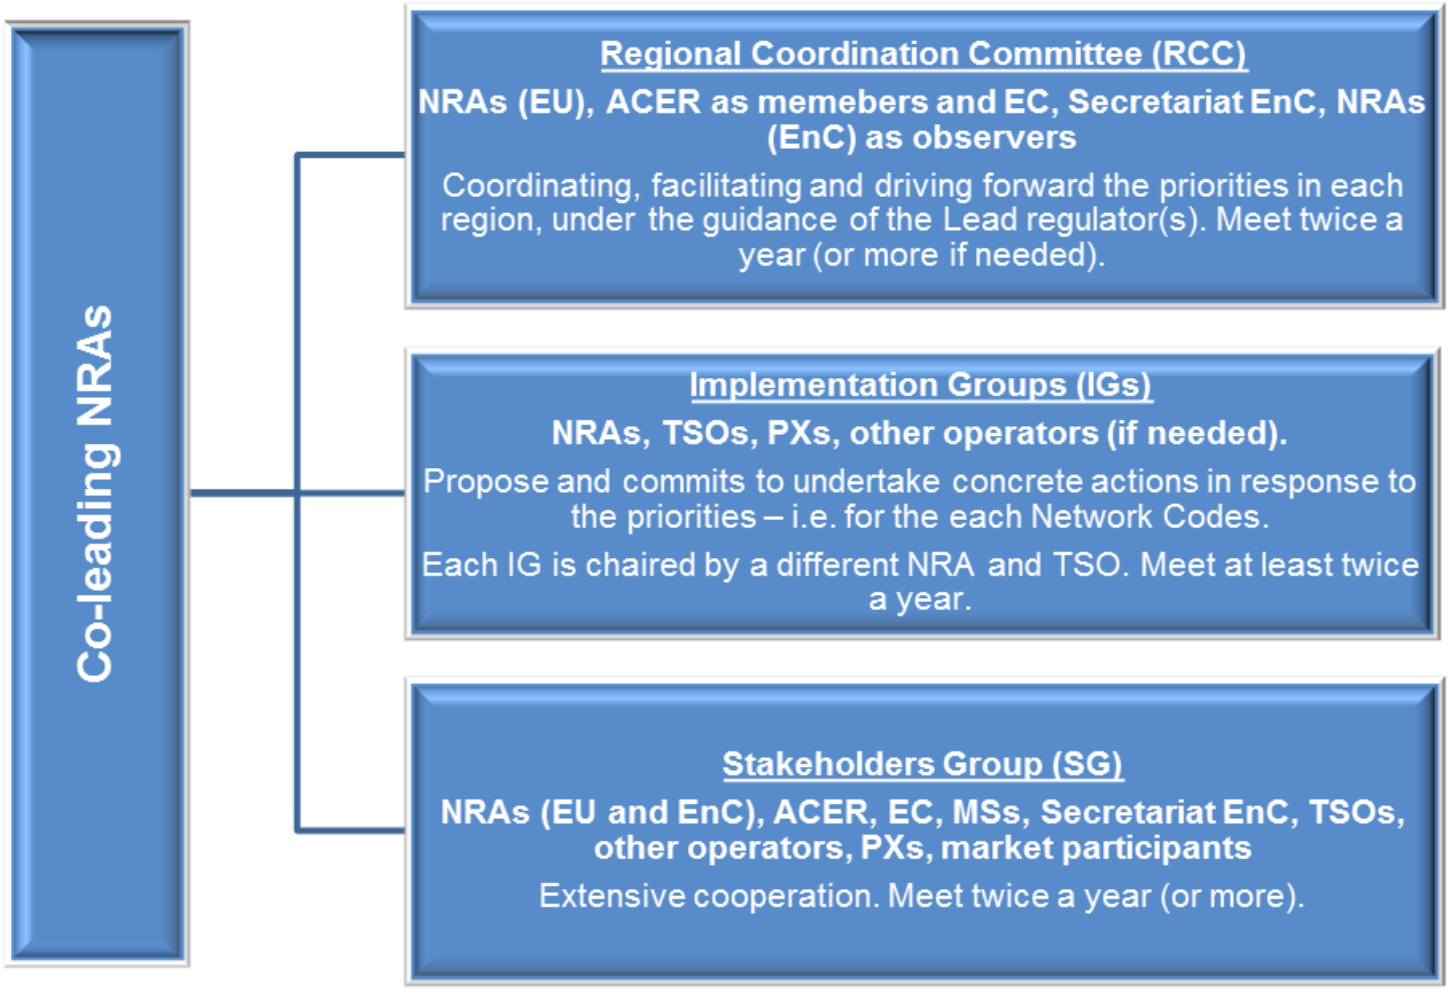
GRI SSE Work Plan 2015-2018

26 th GRI SSE RCC – 11th December 2014

Process developing

ACER
Agency for the Cooperation of Energy Regulators

Organisational structure

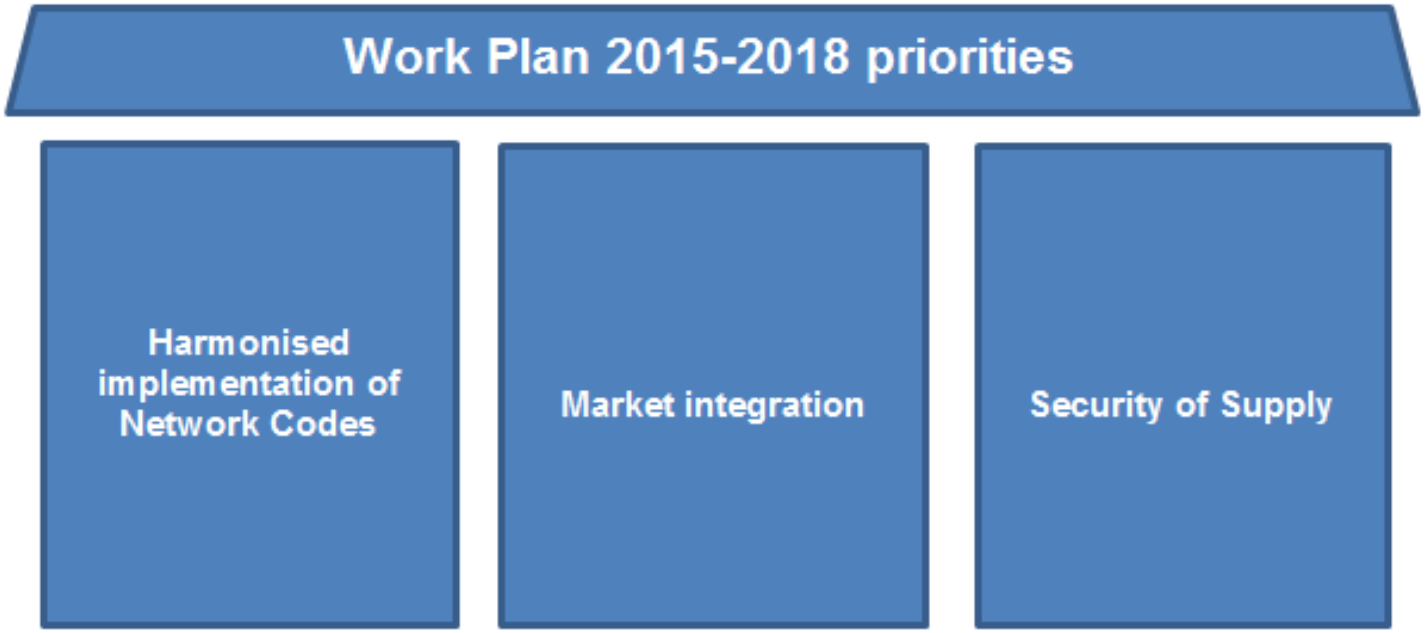


Scope and objectives

ACER guidelines for GRI cooperation.

- early implementation of the Network Codes
- help to implement other EU regulatory developments at national and regional level
- integration of markets through the implementation of the Gas Target Model

GRI SSE Pillars



ACER
Agency for the Cooperation of Energy Regulators

Priorities and deliverables for 2015-2018

26 th GRI SSE RCC – 11th December 2014

ACER
Agency for the Cooperation of Energy Regulators

PILLAR I
Implementation of Network Codes

26 th GRI SSE RCC – 11th December 2014

The CAM NC will apply from 1st November 2015

Implementation Group

- capacity booking platforms cooperation
- bundled capacity products at regional interconnection points
- monitoring of implementation of the Article 6 (1)a of CAM NC
- CMP issues

Co-Chairs: URE/ Gaz-System S.A.

Pilot Projects

Pilot Project I: Regional Booking Platform
Promoters: HEA/FGSZ

Pilot Project II: Gaz-System Auction Platform
Promoters : URE/Gaz-System

Pilot Project III: Common capacity allocation procedures and bundling of capacity products between Bulgaria and Greece
Promoters : SEWRC/RAE

Pilot Project IV: Early Implementation CAM NC on PRISMA
Promoter(s) : ??

The BAL NC will apply from 1st October 2015

Implementation Group

- close cooperation in implementation of BAL NC provisions which require a wider than the national approach such as:
  - TSOs cooperation to determine the relevant short term standardised products,
  - harmonised daily and hourly nominations and re-nominations,
  - establishing the joint balancing platform,
- synchronization of capacity booking mechanism with balancing platform mechanisms.

Co-Chairs: ??

Pilot Projects

(will be defined during the IG works)

Probably shall apply from 1 April 2016

Implementation Group

- interconnection agreements, rules for flow control, measurement principles for gas quantity and quality, rules for the matching process, allocation of gas quantities
- units
- gas quality, odourisation
- data exchange

Co-Chairs: ??

Pilot Projects

Pilot Project V: Harmonization of gas quality parameters
Promoter: URE

ACER
Agency for the Cooperation of Energy Regulators

PILLAR II
Market integration

26 th GRI SSE RCC – 11th December 2014

Pilot Projects

Pilot Project VI: Market integration in CEE
Promoter: E-Control

Pilot Project VII: V4 Project
Promoter: URE

Pilot Project VIII: Cooperation between NRAs TSOs and ENTSOG Transparency Platform in an aim of coordinated fulfillment of transparency requirements arising from regulation 715/2009.
Promoters: GRI SSE Co-chairs

Pilot Project IX: Improvement of transparency of regional Virtual Trading Points in SSE.
Promoter: E-Control

Pilot Project X: Harmonization of trading licenses of V4 countries
Promoter: HEA

Pilot Project XI: The Third Energy Package implementation in SSE countries
Promoters: E-Control/AEEGSI

ACER
Agency for the Cooperation of Energy Regulators

PILLAR III
Security of Supply

26 th GRI SSE RCC – 11th December 2014

Pilot Projects

Pilot Project XII: Exchange best practices and consult SoS preventive action plans within GRI SSE
Promoters: GRI SSE Co-chairs

Pilot Project XIII: Developing joint preventive action and emergency plans in the V4 subregion
Promoter: HEA

Pilot Project XIV: Development of joint preventive action and emergency plans between Greece, Bulgaria and Romania
Promoter: RAE

ACER
Agency for the Cooperation of Energy Regulators

Summary

- Facilitating a close cooperation with Energy Community with an aim of realisation GRI SSE goals
- Implementation Network Codes provisions in a harmonised way
- Establishing of CAM IG, BAL IG and IO IG
- Realization of all existing Pilot Projects and definition of new Pilot Projects (especially in BAL and IO fields)
- Implementation of a closer integration in the region based on the GTM II recommendations
- Ensuring security of supply at an appropriate level for all of the GRI SSE countries
- Elaboration of joint position in a matter of infrastructure plans and goals

Open issues

- Deeper involvement of Member States in a process of building internal gas market;
- Positions that need to be filled: BAL NC IG and IO NC IG co-chairs;
- Identification of joint pilot projects with Energy Community;
- Need to clarify scope, timeline of some pilot projects and appoint coordinators/promoters:
  - RBP and PRISMA Booking Platforms
  - Improvement of transparency in VTPs in SSE
  - Joint SoS plans
